

Organizations Developing Virginia's Salt Management Strategy

Salt use during winter comes with many advantages; however, it also brings about a number of unintended impacts. To strike a balance between the benefits and reducing adverse impacts, a large and diverse coalition of stakeholders coordinated by the Virginia Department of Environmental Quality is developing a Salt Management Strategy (SaMS).

The member organizations developing SaMS include:

Affordable Remodeling, LLC	Loudoun County
Arlington County	Loudoun Water
Audubon Society of Northern Virginia	McLean Citizens Association
Center for Watershed Protection	Metropolitan Washington Airport Authority
Chesapeake Bay Foundation	Metropolitan Washington Council of Governments
City of Alexandria	Mount Vernon Council of Citizens' Associations
City of Fairfax	NAIOP Commercial Real Estate Development Association
City of Fredericksburg	Northern Virginia Regional Commission
City of Manassas	Northern Virginia Trout Unlimited
Clean Water Action	Occoquan Watershed Monitoring Laboratory
Fairfax County	Prince William County
Fairfax Master Naturalists	Rock Hard Excavation
Fairfax Water	Ruppert Landscaping
Friend of Huntley Meadow Park	Snow and Ice Management Co.
Friends of Accotink Creek	Towson University
Friends of Dyke Marsh	Virginia Department of Health - Office of Drinking Water
Ft. Belvoir	Virginia Department of Transportation
George Washington Memorial Parkway	Virginia State Police
GKY & Associates, Inc.	Virginia Tech Transportation Institute
Green Earth Care	Washington REIT
Greenspring Village	
Izaak Walton League of America
