

Does your community have a stormwater project that needs funding?

DEQ Clean Water Financing and Assistance Program can help!

Our Stormwater Local Assistance Fund (SLAF) provides:

- Funds for planning, design and implementation of stormwater BMPs and nutrient credit purchases
- Grants for up to 75% of your project cost
- Below market rate loans may be available for grant matching
- Local governments are eligible to apply

Eligible Projects Include:

- New stormwater BMPs
- Retrofits of stormwater BMPs
- Stream restoration
- Low Impact Development projects
- Buffer restoration
- Pond retrofits
- Wetlands restoration
- Nutrient credit purchases

Protecting Virginia's watersheds makes economic sense!

Prince William County used SLAF funds to restore a section of Dewey's Creek, providing habitat improvement, wetland restoration, fish passage, and infrastructure protection, all while helping clean up the Chesapeake Bay.

Investing in stormwater reduction projects leads to:

- Alleviation of Stormwater Flooding
- Safeguarding Local Infrastructure
- Reduction in Sediment Impacts to Drinking Water Resources
- Healthier Local Waterways

We are here to help to meet your stormwater funding needs!

- Over \$189M stormwater grants obligated since 2014
- Local grant match opportunities through low interest loans
- 4-page application with new online application portal
- Helpful and dedicated staff
- Grants from \$50,000 to \$5,000,000 per local government
- Reimbursement for up to 75% of eligible project
