## VI. DISCUSSION POTENTIAL REGULATORY JURISDICTION

As a separate attachment, provide complete and detailed information in response to the following eligibility questions. It is permissible to reference specific sections of existing site reports however, please summarize information. Include essential information, such as type, amounts of materials, and the date of release/disposal. The outline below is provided to ascertain appropriate information as defined in 9 VAC 20-160-30 so that DEQ can expeditiously provide a VRP Eligibility Determination. For sites with multiple addresses include this information for each address.

**CERCLA Investigation:** Has an investigation(s) been conducted relative to the property under the auspices of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), also referred to as Superfund?

**CERCLA / NPL Listing:** Has the site or any portion of the property ever been listed or proposed for listing on the National Priorities List (NPL) established under CERCLA?

**Petroleum or Oil Releases:** Is/are the release(s) involved currently regulated, or been regulated, under the Code of Virginia State Water Control Law Article 9 §§ 62.1-44.34.8 *et seq.* or Article 11 §§ 62.1-44.34:14 *et seq.*? For releases involving petroleum compounds, it is advisable to inquire with the appropriate regional office about the potential applicability of these articles. Include any pollution complaint numbers (PC#) issued to the site.

**RCRA:** Is the site subject to the Virginia Hazardous Waste Management Regulations (VHWMR) per 9VAC20-60-10 *et seq.*? Provide all EPA ID numbers associated with the site. If the site is or was a hazardous waste (HW) generator, indicate if hazardous waste was treated, stored, and/or disposed of at the site.

**Present or Past Permits:** Has Virginia DEQ or USEPA issued any permits, past or present, to the site (air, water, waste, etc)? Please note, EPA ID Numbers for hazardous waste generators are not permits, identify these in the discussion of RCRA jurisdiction.

**Enforcement Action:** Is remediation of the release(s) currently subject to an enforcement action pursuant to city, county, state, or federal environmental laws? Enforcement actions are generally interpreted as orders or civil lawsuits issued by governmental entities to conduct regulated activities at a property or facility. They include environmental orders or agreements (e.g., Consent Order / Agreement, Interim Agreement, Letter Agreement, etc.) with a city, county, state, or federal agency.

**Open Dump / Unpermitted Facility:** Has solid waste, construction debris, demolition debris, industrial waste, ash, or any other waste been disposed or otherwise managed on the site? Has the site been determined, prior to application submittal, to be an open Dump / Unpermitted Facility under 9VAC20-81-45, and do such conditions still exist?

**Waste Generator:** Do any past or current activities conducted at the property require classification as an EPA or Virginia Hazardous Waste Generator? If a facility or operation on the property was or is classified as a hazardous waste generator, specify the applicable identification number in the discussion of RCRA jurisdiction.

**Immediate Risk:** To the best of your knowledge, does contamination at the property poses an immediate risk of harm to human health and the environment?

**Impact to Drinking Water:** Does contamination at the property have the potential to impact, or has already impacted, public or private drinking water wells or surface water supplies (i.e. supply intakes or streams or lakes)?
